

ScanTech Offshore announces New Director of Americas

ScanTech Offshore is excited to introduce the newest member of the ScanTech team, Peter Walkley. As Director of Americas, Peter will be responsible for driving, leading and developing the Latin America region as part of ScanTech Offshore’s overall growth strategy.

Peter Walkley’s appointment will bolster ScanTech’s significant investment in region, including the establishment of the new production and service facility in Macae, Brazil.

Peter has a history of effectively generating and sustaining business from his abundance of experience, working within the Oil & Gas industry for over 30 years.

Peter, newly appointed Director of Americas, said “I’m delighted to join ScanTech Offshore at such an

exciting time in their history. The company is clearly a market leader, with an innovative approach to supporting its clients, providing well beyond what is available elsewhere in terms of both industry products and technology. Having listened to client requirements, ScanTech continues to provide the most advanced products available, in particular the Zone II steam generators and Zone II compressor packages, along with a strong business client support background.

I look forward to helping ScanTech Offshore to continue to grow as the market leader. ScanTech Offshore has demonstrated competitive strategy excellence; it has properly identified industry trends and has positioned itself for long-term growth through sustainable strategies that deliver superior customer value. This forward-thinking company offers solutions that improve operational efficiencies and accelerate business processes and opportunities for the prime benefit of its clients. An exciting future awaits.”

ScanTech Offshore have already established key contracts in Latin America with the likes of Schlumberger, Halliburton, Expro and Sevan Drilling. Mike Aitken, Sales Director for ScanTech Offshore, recognises the significance of strengthening ScanTech's presence in region and welcomes Peter on board.

Mike said "We're focussed on developing our business in Latin America, predominantly due to our commitments in Brazil. We see great potential within the region, so our plans are to increase our presence both in mature and emerging markets. Having Peter join us brings a significant advantage to the team due to his knowledge and capabilities."
